To Whom It May Concern:

I serve as the National Director of Discovering Opportunities for Outreach and Reflection (DOOR). We are a network of Service Learning Programs spread across six cities and states.

Prior to working with Rob Paris and the Ministry Risk Management group, we used a mixture of providers based on which state each provider could do business in. Rob and his team have managed to find ways to provide consistent and competitive coverage across the DOOR network. In addition, they understand the unique needs of a faith-based ministry.

Rob and his team have always been available when needed. I would strongly recommend this team of professionals to assist you in your insurance needs.

Peace,

Glenn Balzer
DOOR National Director

See the face of God in the city
